- Download dvwa http://www.dvwa.co.uk
- Extract dvwa.rar

- Remove any existing content in /var/www/html/ directory first
- mv DVWA-1.9 /var/www/html/dvwa

- chmod -R 777 dvwa

- # service mysql start

- mysql -u root -p
- mysql > create database dvwa;
- mysql > CREATE USER 'user'@'127.0.0.1' IDENTIFIED BY 'p@ssword';
- mysql > grant all on dvwa.* to 'user'@'127.0.0.1';
- mysql > flush privileges;
- mysql > exit

- # service mysql stop change username password info in the conf file as user, 'p@ssword'

- Fill the inch.php with the conf file in the conf directory  gedit /var/www/html/dvwa/config/config.inc.php
